OU3/West Van Buren WQARF Site and Roosevelt Irrigation District (RID): (ADEQ agenda item)

- RID pumps contaminated groundwater in West Van Buren (WVB) and delivers the water for irrigation use.
- RID met with ADEQ in March claiming to be an injured party and proposed treating groundwater to MCLs in exchange for release from Superfund and WQARF liability.
- RID ~~Proposed-proposed~~ construction of treatment facility as an early action and coordinating remedy with ADEQ and EPA
- RID has requested a meeting with ADEQ and EPA management to discuss their proposal on May 18th.
